KLOISALL SERVICES

SOLID SURFACE FABRICATORS

Kloisall specializing in solid surface off-site fabrication and the company have own fabrication factory unit located in Aroor and equipped with the latest tools and machinery's.

Solid surface is a material that is warm to the touch and similar to natural stone. it is made of two-third of natural minerals (ATH-Aluminium trihydride) and a low percentage of high-resistance resins. This composition given solid surface a number of exclusive features. There are lot of benefits of the products. It does not have any pores, it is Anti-bacterial, highly resistance and easy to repair, only requires minimum maintenance and easy to clean.

It is shaped in a similar way to wood, making it possible to cut the sheets, connect them and thermoform them to create curved sections, and can even be injection moulded to create designs and projects that are impossible with other materials.

Wide range of colors are available, including a white finish that stands out for its purity and neutrality in comparison with other similar materials. It is Ecological material and it is 100 % Recyclable.

Solid surface a versatile design solution and ideal for different sectors (Homes, apartments, villas, transport sector, design art work, products, complementary items, schools, museums, restaurants, bars, hotels, hospitals, clinics, laboratories etc.

Solid surface applications inspiring new ideas because of benefits of the products endless design, out door and indoor wall cladding, furniture, retail furniture, kitchen counter top, bathroom counter tops, vanity, wash basin, shower trays, bath tub etc.
